DEDICATION

To my wife,
Colette

To my children,
Mark, Paul, and Lori

To my Dad,
George

And to record collectors everywhere.

ABOUT THE EDITOR

Paul C. Mawhinney has owned and operated Record-Rama in Pittsburgh, Pennsylvania since 1968. Paul is recognized as one of the world's leading dealers in collectible records and is the first dealer to have completely computerized his inventory and record information files. He is thought to own the largest archives of 45 RPM records outside of the Library of Congress.

Long a leader in record care products, Paul copyrighted his "45 RPM Record History Sleeve," known to radio stations and collectors worldwide as "The Original Yellow Jacket." Recently, Paul purchased exclusive rights to the "Spin-Clean Record Washer System" from the Fidelitone/Recoton Corporation. He continues to manufacture and distribute these useful products from his Pittsburgh base.

In the future, Paul will conduct seminars on record collecting, pricing, buying and selling.

ABOUT MUSICMASTER

Always an innovator, Paul Mawhinney was years ahead of the industry in computerizing the history of 45 RPM records. In the early years of the business, Paul recorded the information about his inventory on 3x5 cards. By 1977 the file had grown to an unmanageable 35,000 cards. At about the same time, through a lucky coincidence, Paul met Gene James, a computer expert and fellow record collector. Together, they planned a computerized data system. From that plan, MusicMaster, the first comprehensive compilation of 45 RPM records was born. This database, continually expanding, will be printed each year as MUSICMASTER, THE 45 RPM RECORD DIRECTORY.

ACKNOWLEDGEMENTS

Gene James ..... Computer Wizard
OMNIS Computer Systems
Greensburg, PA

Special appreciation is given to the following friends for their continued encouragement and support for this project:

Porky Chedwick ..... The Daddio of the Raddio
Pittsburgh, PA
Dick Clark ..... Dick Clark Company, Inc.
Burbank, CA
Henry Deluca ..... Roots of Rock 'n' Roll Concerts
Pittsburgh, PA
Trevor Ley ..... KSJO Radio
San Jose, CA
Judy Maricevic ..... OMNIS Computer Systems
Greensburg, PA
Ed Salamon ..... United Stations
New York, NY
Rick Sneathen ..... Rockin' Railroad Man
Mt. Lebanon, PA
Robin Wadleigh ..... OMNIS Computer Systems
Greensburg, PA

...and thanks to Pittsburgh, home of the dusty discs, and Pittsburgh people all over the world who help to create that special something!

PREFACE

"MusicMaster: The 45 RPM Record Directory" has taken 15 years to produce and has been, from the start, a labor of love. It is the largest work of its kind and the only one that includes all types of music, fully and correctly sorted alphabetically by artist and title.

Information for MusicMaster was gathered right from the records themselves, not simply compiled from other books or magazines. Our library has one of the largest collections of 45's in the world (over 1,000,000). Every effort has been made to enter every known recording by any established artist or any version of a standard or classic song title. Since this is a first edition, the data will continue to grow. The editor welcomes any information about 45's which may belong in the next edition. Photocopies of the labels of suggested additions should be sent to the editor.

Record manufacturers are invited to send catalogs and advance release information as it becomes available to insure their timely inclusion in subsequent editions. The MusicMaster National Record Archives attempts to maintain multiple copies of all listed records for generations to come. Arrangements for the care and maintenance of this vital collection are currently being negotiated with several national non-profit institutions to insure the preservation of this precious resource. Manufacturers who do not currently participate in this program are invited to contact the editor to arrange for the free cataloging of their works.

MusicMaster does not list prices or values for records because they are so rapidly changing that it would be impossible to keep the list up to date. The purpose of the directory is to provide the collector with a single source for all fixed information for any 45 RPM record.

It has taken over 5 years to enter the MusicMaster data into our computer. To give you some idea of the magnitude of this work, consider that less than 1000 records are charted hits each year. Since 1947 there are well under 35,000 charted hit records, yet MusicMaster catalogs nearly 100,000 recordings, with a total of over 200,000 listings!

MusicMaster is more than a book - it's an ongoing information service. For information regarding any recording, listed or not, tear out one of the inquiry cards at the back of the book, fill it in and mail it to us with the fee described on the card. Or, send a self-addressed stamped envelope and $1.00 for each of up to five questions. We give all inquiries prompt research and a speedy reply. Limit all questions to 45's, LP's or tapes — no 78's! The current market value will be supplied only if we have the recording to sell.

To track down out-of-stock or out-of-print records, the Worldsearch Service is available. For a fee of $5.00 per recording, we will search for any recording, listed or unlisted, if we are given an artist, title, and/or manufacturer's stock number. This service is for a period of 12 months or until we locate your record, whichever come first. The collector is notified by mail when we locate the request and is given 30 days to purchase the record. There is never an obligation to make a purchase. Note that outstanding Worldsearch requests are listed in MusicMaster by the appearance of the abbreviation "WS" in the miscellaneous section of the listing, thus assuring the collector of the widest possible circulation of his request. For immediate action, call 412-486-2100.

In our constant effort to improve this directory and our services, we invite your comments and suggestions, as well as notes of omissions or errors.

Paul C. Mawhinney
Editor, MusicMaster

HOW TO READ A LISTING IN THIS DIRECTORY

1	2	3	4	5	6	7	8	9	10
23768	BILL HALEY & THE COMETS	(WE'RE GONNA) ROCK AROUND THE CLOCK	DEC	9-29124	13189	1	V	1954	13190

1. **RR#** ..... This is the number assigned to each RECORD. It is unique to a particular disc. It may identify the location of that disc within the collection. If you are cataloging a collection of singles, label and file your records by this number and you will be able to use MusicMaster to locate any record in your collection by artist or title. Flip sides ALWAYS have the same RR#.

2. **ARTIST**..... The name of the artist, or artists, who recorded this listing.

3. **TITLE**..... The complete title of the recording.

4. **LABEL**..... A mnemonic abbreviation of the name of the record company who produced this record. See the "Label Directory" for the full name of the label.

5. **MANUFACTURER #**... The record manufacturer's stock number for this record. Flip sides almost always have the same stock number.

6. **COMPUTER #** ..... The MusicMaster computer number for this listing. It is unique for each title on each record. There will be a different computer number for each cut listed for a given record. (See also 10 below)

7. **TYPE** ..... This identifies the vintage of the release:
   1...First pressing
   2...Second pressing
   3...Third pressing
   -J..DJ/Promotional pressing (archives copy)
   R...Reissue-generally available
   RX..Reissue-discontinued

8. **V/X**..... V:vocal, X:instrumental, C:comedy

9. **YEAR**..... The year that the record was ORIGINALLY released. Note that this is not the year the record became a charted hit. This will still be the original release date even if the record was re-recorded, as indicated RD in the miscellaneous information section.

10. **FLIP** ..... The MusicMaster computer number for the listing of the flip side, or other cuts of an EP. All cuts of two-sided hits and EP's are linked together in this way.

MISCELLANEOUS..... See keys to miscellaneous information on following page.

Key to Miscellaneous Abbreviations

	GRN	Green	**WHT**	White
	ORA	Orange	**YEL**	Yellow

NOTE: The miscellaneous information shown is often of very narrow interest, but still may appeal to some collectors. You may note that MM and TL both refer to Pittsburgh disc jockeys, for instance. WS means we are actively searching for a copy of this disc for a WorldSearch subscriber. Some information may only refer to a copy or copies in stock at Record-Rama, such as LB, PC, PD, or TP, but a collector may consider it useful to know that the disc exists in such form.
